

Pipeline Fourteen

Concentrated and sophisticated alkaline beer line cleaner with built-in solution-status indicator and bactericides for quick and efficient application and long-lasting effect. Designed to be employed every two weeks, after the beverage dispense system has been thoroughly treated with Pipeline Bottoming-Out Kit.

PRODUCT SPECIFICATION		
Name:	Pipeline Fourteen	
Product Code:	D-PL1405L	
Product Size	5 litres	
Packing Quantity	2 x 5 litre	4 x 5 litre
Packing Size (L x H x D cm)	27 x 30 x 20 cm	38 x 30 x 28 cm
Shipping Weight (kg)	12 kg	24 kg
Shipping Volume (m ³)	0.016 m ³	0.032 m ³

This product is available in other sizes

How to use

Dilution Rate: 5% (500 ml per 10 litres).

Cleaning: Switch off coolers. Use a Pipeline Professional Measuring Jug for the correct dilution. Make up the cleaning solution in a plastic container or cleaning vessel with cold or warm water (<40°C). Pump solution through the dispense tap into a white plastic receptacle such as a Pipeline Bucket until emergent solution is purple. Allow to stand for five minutes. Draw off a full line of solution, discarding discoloured fluid until purple re-emerges. Repeat this procedure until purple colouration is stable throughout the dispense system.

Rinsing: Pump fresh cold water through to dispel all purple fluid followed by a further two litres of water. Verify the purity of this water using Pipeline Rinse Water Test Papers: Dip paper under the running water. If there is a trace of PIPELINE in the water, the test paper will turn purple. If the paper stays pink no cleaning solution remains and rinsing is complete. Switch coolers back on. Reconnect and inspect beer for quality.

Pipeline Fourteen - UN3266

Danger – Contains Potassium Hydroxide

Keep out of reach of children. Wear protective gloves/protective clothing/eye protection/face protection.

Precautions – Causes severe skin burns and eye damage. Contact with acids liberates toxic gas.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Get immediate medical advice/attention.

If swallowed: Rinse mouth. Do NOT induce vomiting. Get immediate medical advice/attention.

If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

If skin irritation occurs: Get medical advice/attention. If medical advice is needed, have product container or label at hand.
